Health insurance	All incoming exchange students should apply for the European Health Insurance Card or contract an equivalent health insurance policy before arrival.
Civil liability insurance	Exchange students should subscribe to a civil liability insurance policy which guarantees the repair of damages that may be caused by the student to a third person, to possessions for which they are legally responsible, or to their accommodation, regardless of whether the damages were caused through negligence or not. We strongly advise that you take out this insurance before arriving in France.
Estimated living expenses	Depending on the destination. See «nos campus» on : https://ecole-ingenieurs.cesi.fr/
Accommodation	Each campus website provides information. https://ecole-ingenieurs.cesi.fr
Student life	Buddy programme, students organizations

CESI Graduate School of Engineering

would be delighted to welcome you as an exchange student or for a teaching/ staff mobility.

We are a 5-year Graduate School of Engineering and we train future engineers in the fields of “Industry and services”, “Construction”, “IT”. Our engineering degrees are accredited by the French board of Engineering (CTI) and EUR-ACE® labelled.

Our pedagogy puts the students in a similar environment as in a company or a professional situation : projects led collectively lead to the knowledge and understanding of the learning outcomes. These projects or problems are transdisciplinary, and they combine scientific, technical, professional, linguistic and intercultural contents.

CESI Graduate School of Engineering is based in 25 cities all over the French territory.

Evaluation des Unités d’Enseignement / Course Unit Evaluation:

ECTS Grade	CESI	Définition
A	A	TRES BIEN - Les objectifs définis sont atteints VERY GOOD - Defined goals are achieved
